PROJECT DETAILS

Project 1

Kohler	
Role	Automation Test Analyst
Project	Kohler, Leading E-commerce platform (us.kohler.com)
Technology	JAVA, Groovy, Spock, Geb, HTML5, CSS , jQuery, Eggplant
Role Played	<ul style="list-style-type: none">• Understanding the functionalities of the application.• Understanding the requirement and having walkthroughs with Clients.• End to end testing of all the components in all browser/device• Worked on developing the Test framework• Build the reporting services using Bitbucket pipeline using Browserstack and azure as per the functionality and business requirement.• Dynamically displaying the data for the test based on the set up as per the requirement.• Testing the functionality developed.• Integration with the remote server of Browserstack.• Integration with Azure host for publishing daily automation reports.• Integration with Bitbucket pipeline for build and scheduling the test report.• Picture driven framework using eggplant tool.

Project 2

TruLocal	
Role	Quality Analyst
Project	E-commerce solution for managing order and delivery services.
Technology	Salesforce
Role Played	<ul style="list-style-type: none">• Develop, execute, and maintain test designs, including test cases and test scripts. Develop and maintain test data as necessary to support testing efforts• Review requirements and technical documents to understand the project and provide feedback• Created detailed and comprehensive test cases• Tracking of bugs and stories progress using JIRA tool• Prioritizing and estimating the testing activities

Project 3

Edlogics	
Role	Quality Analyst
Project	Edlogics, E-learning education solutions for the healthcare industry (edlogics.com)
Technology	Java, HTML5, CSS, Kantu.
Role Played	<ul style="list-style-type: none">• Understanding the requirement and having walkthroughs with Clients..• Involved in documentation of test cases on JIRA and execution of them.• Worked on Test plan draft creation and strategy and it's execution• Risk assessment of the product and defining entry and exit point.• Responsible for implementation of test plan according to the release cycle• Regression test suite creation on Jira Zephyr• Regression test suite execution and log bug• Design image based automation test script test using Kantu tool

Project 4

Xref	
Role	Quality Analyst
Project	Xref, Tool for sales team for comparing sanity product features
Technology	React Java
Role Played	<ul style="list-style-type: none">• Understanding the requirement and having walkthroughs with Clients.• End to End testing of flow of different users• Salesforce integration testing• Automation of user flow using Geb-Spock• Tested the complete functionality developed.
